# Matvey Nekrasov

## Government Relations Analyst & LegalTech Expert

### Work Experience

- **[Coregulation](#)** – AI Product Manager, RegTech SaaS, *since 2025*
  - AI chat assistant – reads a draft law, maps stakeholder impact, drafts amendment strategy; replaces the two-day analyst memo.
  - Prototyped solo with Claude. Stack: Python, Flask, React/TS, Postgres/pgvector, Redis, RAG, LLMs, Docker.
- **[Kesarev Partners](#)**, Government Relations Analyst & LegalTech Product Manager, 2016–2024
  - LegalTech Product Manager – led a team building a SaaS platform for legislation monitoring.
  - Government Relations Analyst (FMCG & IT) – regulatory analytics and monitoring of State Duma committees.

### Friendly & Pet Projects

- **Rounds** – US GovTech data + AI, *since 2026*
  - Scheduled AI routines that monitor public U.S. federal data – Congress, Federal Register, LDA, FEC, FARA.
  - Each run returns a finished document on its own – a comment draft, a policy memo, a morning brief.
- **[Praevenio](#) App (pet project)** – Product Manager & Developer, 2024–2025
  - MVP of an AI platform for tracking and analysis of regulatory acts and media reports.
  - Prototyped solo in 2 months with Claude – architecture, UI/UX, and coding.

### Education

- **Lomonosov Moscow State University** – Faculty of Political Science; Political Institutions, Processes and Technologies (Postgraduate Studies), 2014–2017
